You will be following the player rotation on the scoresheet. After the first game, the loser of the previous game will shoot first. If you are the losing team and your player is not in the first position on the dart machine – press the player change button to advance the machine to your player's position and begin the game.

All playoff matches will be a race to Eight games. You will use the score sheet to determine the roster for the match. If a 15th game is necessary you will flip a coin to determine which team shoots first and you will follow the score sheet for the players in the 15th game.

The first night of playoffs, first and second place teams will have the Home match and third and fourth place teams will travel. After the first match the teams with the highest winning percentage will have the home match.
